## LIGHTNING RODS

HAVE BEEN PROVED A BENEFIT TO PROPERTY.

## SCIENCE DEFENDS RODS

Experiment Station Decides That Franklin's Invention is a Blessing to Mankind.

In the late years the lightning rod "graft," for such it has been called in the past, has been worked to such an extent that the public had doubted the real value of the rods. Unscrupulous men pretending to be experts, have traveled through the country imposing on ignorant persons and leaving in their train rods that were so carelessly erected that they were as likely to be a source of danger as of protection.

At last, however, science has come to the defense of the much abused rod. In a bulletin to be issued this week by the engineering experiment station at Columbia, Mo., it is shown conclusively that lightning rods are a protection.

Only eleven buildings equipped with lightning rods have been damaged by lightning in the last three years in Missouri. In some cases rodded houses have been struck by lightning and not an unrodded house damaged.

This has caused the public to doubt the value of the rod. On the other hand, hundreds of houses without lightning rods have been struck while the rodded houses have escaped.

A proof of the benefit of the lightning rod has been given for several years in Iowa and Missouri. Meetings of delegates from each county in the state are held each year. The results of these meetings show that the heavy loss to property unprotected by lightning rods is so great in comparison to the damage to rodded houses that there is no doubt of the worth of this invention.

The lightning rod, however, has not proved as useful in this country as it might, on account of ignorance of its true value, and on account of the fact that rods have frequently cost more than they needed to.

Benjamin Franklin invented the first lightning rod. He announced his discovery in a pamphlet called "Poor Richard's Almanac," of which he was the publisher. Franklin and his friends immediately set to work to induce their fellow countrymen to place lightning rods on their houses.

It was not a great while before some of these were put to test and proved successful. A Philadelphia merchant by the name of West was one of the first to provide his house with the kind of rod that Franklin recommended. A thunderstorm occurred soon after it was finished and lightning struck the point of the rod. The stroke was witnessed by number of people, who reported that they had also seen a flash near the foot of the rod. The house was not damaged. A few cases such as this, where heavy strokes of lightning left houses uninjured, were enough to convince of real protection. However, their use spread rather slowly.

Mrs. Ralph W. Eversole and Miss Esther Shoemaker left Monday evening on a business trip to Chicago of a few days.

### BULL MOOSERS DEFEATED.

In Normal Basket Ball Tournament—Bee Hives Are Beaten by Berney Harris Team.

#### Standing of the Teams.

	Won.	Lost.	Prct.
Montgomery-Lyle	4	1	800
Toggeries	3	2	750
Bull Mooses	3	3	500
Bee Hives	2	3	400
Montgomery Shoe Co.	2	3	300
Berney Harris	2	4	533

Woodward's Montgomery Shoe Co. team nosed out the Bull Mooses and the Berney Harris' soundly trounced the Bee Hives in Monday afternoon's play in the Normal basket ball tournament at the Normal gym.

The first contest between the Moosers and the Montgomery Shoe Co. started out with the shoe men period in the lead, but in the second period the Moosers took a brace and were just barely beaten by a 15 to 13 count. Cap. Vandersloot of the losers was not in his usual form, and he repeatedly missed easy chances for goals that would have put his team in the lead.

For the winners, Cap. Woodward at guard and Watson at forward twinkled frequently. The summary:

Montgomery Shoe Co.—Forwards, Watson and Brittain; center, Starmer; guards, Woodward and Powell.

Bull Mooses—Forwards, Vandersloot and Hanna; center, Jones; guards, Richie and White.

Goals from field—Vandersloot 2, Hanna 2, Watson 3, Starmer.

Free throws—Vandersloot 3, Watson 6, Woodward.

The first half of the second game, which was between the Bee Hives and the Berney Harris team, was nip and tuck, that period ending with a 4 to 4 count. However, in the second half the clothiers gradually overcame their opponents and won handily, 15 to 6.

The Bee Hives were slightly handicapped by the absence of Captain McClintock, who is out of the game with a lame foot. Prof. Eek, who took charge of the team, played a very creditable game, considering that yesterday's game was his first this season. Summary:

Bee Hives—Forwards, Carpenter and Anderson; center, Eek; guards, Hanna and Hartness.

Berney Harris—Forwards, Boyer and Mathes; center, Perrin; guards, McDougal and Taylor.

Goals from field—Perrin 3, Mathes, Taylor, Carpenter, Eek.

Free throws—Perrin 3, Anderson, Eek.

### MRS. J. G. PRICE INJURED.

Accident Occurred on a Bad Crossing at Corner of Fillmore and Jenkins Street.

Mrs. J. G. Price was badly injured Saturday evening on her way uptown when she fell off a very bad crossing at the corner of Fillmore and Jenkins streets. Her right shoulder was injured and her right arm was badly bruised. Mrs. Price will be laid up for six or eight weeks with her injuries.

The street commissioner and the city have been notified time and time again about this dangerous crossing, but for some reason they have never made any effort to fix it. If the city had repaired this crossing when notified, no doubt Mrs. Price would not be laid up today.

## ONE WAY TO DO IT HELD IN SECTIONS

### SHOULD NO CANDIDATE RECEIVE MAJORITY OF ELECTORAL VOTE.

### HOUSE WOULD BE TIED FAMOUS TALKERS COMING

And Then Senate Might Not Be Able to Agree—Would Mean New Election Next Year.

The indications from all over the country are that Governor Wilson will win in the election today by a big popular vote and also by a big electoral vote. All signs point to Wilson. But if the election is closer than many people figure on, and in the event of a failure of any candidate to get a majority of electoral votes, many people are making inquiries regarding the procedure and who would be president. The following is from the Kansas City Times in regard to this, which will probably be of interest:

At the election today the people do not vote for presidential candidates directly. They vote instead for electors. Each state has as many electors as it has senators and representatives. Altogether there are 532 electors, and 267 votes will be necessary to elect.

It may be mentioned in passing that most of the tables of electoral votes are wrong, for they credit New Mexico with three electoral votes instead of the four that it actually has.

The electors meet in the capitals of their respective states on the second Monday in January and go through the formality of casting their ballots. A certificate of the result in each state is then sent by special messenger to Washington, and on the second Wednesday in February the votes are counted in the presence of both houses of congress.

If it should appear at that time that no candidate has a majority of the electoral votes, then the two houses separate. The house at once proceeds to select a president from the three candidates receiving the highest number of votes. In this selection the house votes by states, the representatives from each state having one vote.

Now it happens that the states are a

politically, with the delegations from four states evenly divided. It is improbable that any candidate could get a majority of all the states. There

would therefore be no choice, and the vice president-elect would become president on March 4.

If there were no election of a president by the electoral votes, there would be no election of vice president and the senate would choose a vice president. A majority of senators would be sufficient to elect, and the choice must be made from the two vice presidential candidates receiving the highest number of votes.

The chances are that enough regular Republicans would abstain from voting to prevent any candidate from getting a majority of all the senators.

In that event there would be no president elected.

It is generally assumed that the secretary of state, being next in succession, would become acting president on March 4, as he is appointed for an indefinite term and his commission does not expire with the administration.

Then he would be bound to convocate congress in special session within twenty days for the purpose of enacting laws for a special presidential election.

Should there be no election today then the chancery would be good for another campaign and election next year.

### Came for Conrad Funeral.

Mrs. Marvin Eggleston returned to her home in Kansas City Tuesday morning after a few days' stay in Maryville with her relatives, the families of F. C. Conrad, George Conrad and Mrs. Henry Eckert. Mrs. Eggleston came to Maryville on account of the death of her grandfather, C. Conrad, who died at the home of her parents Mr. and Mrs. Levi Taylor, at Holdenville, Okla., Tuesday of last week, whose funeral and burial service took place in this city.

### Returns at Palestine Church.

The election returns will be used at the Palestine church, near Graham, this evening after church services. Revival services are being held now at that church by Rev. Harlan of Maitland, and after the sermon tonight all who care to remain are invited to do so, when the returns will be received.

The big declamatory contest will be held on Thursday evening. Twelve contestants have entered. The contestants are one each from the following places: Fairfax, Tarkio, Elmo, Burlington Junction, Skidmore, Pickering, Hopkins, Parnell, Sheridan, Grant City, Stanberry and Graham.

The prizes given will be as follows:

First prize, a handsome gold watch; second prize, a ten-dollar gold piece; third prize, a five-dollar gold piece.

The preliminary contest for declamation will be held on Thursday afternoon at 2 p.m. Every contestant

### ELECTION RETURNS AT COURT HOUSE.

The Democrat-Forum will give election returns at the circuit court room in the court house tonight. A direct wire of the Western Union and an operator will be there and the bulletins will be given as soon as received. In addition to national and state returns, county returns will also be received there.

Everybody is invited, especially the ladies. There are plenty of seats for all. Come out and hear the election returns in comfort, whatever the weather may be.

The election bulletins will start coming in at 5 o'clock, and these bulletins will be posted at The Democrat-Forum office from 5 to 7 o'clock, then they will be posted at the court house. After 7 o'clock all bulletins will be received at the court house.

Doors will be open at 6:30 o'clock. There will be no reserved seats.

### COURT ADJOURNED TODAY.

Will Meet on Wednesday When Road Petition Will Come Up.

The county court after being in session one day, adjourned Monday evening until Wednesday, as Tuesday is election day. Judge Wm. Blackford, a member of the court from the north district, is a candidate for re-election and went home where he will work and vote. Judge J. O. Thompson, the other member of the court from the south district, also went home Monday evening to vote Tuesday.

The resignation of A. F. Croy and D. McKibban as justices of the peace were accepted by the court Monday.

Frank S. McMackon filed a petition for a private road in the land belonging to Mrs. Kate Rundle and the court set Wednesday as the day when the case will come up.

A petition for a new road in Union township was filed Monday, and the signers were G. W. Thompson, W. A. Shelman, A. T. Flora and others. A remonstrance petition was also filed, and the case is slated to come before the court on Friday.

The court will canvass the returns of today's election at their session on Friday.

## HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

"I cured my indigestion, and by this means I was restored to health. I can express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and bad health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.

Insist on Thedford's. Price 25c.

## COURT RESTRICTS ALL INJUNCTIONS

Supreme Court of U. S. Makes Radical Changes in Rules.

### FIRST REVISION IN 50 YEARS

Embodyed in New Ruling Are Many Points for Which Leaders of Organized Labor Have Made Long Fight.

Washington, Nov. 5.—In promulgating the first revision of the equity rules of federal courts in the last 50 years, the supreme court of the United States prohibited the granting of preliminary injunction without notice, and restricted the granting of temporary restraining orders.

The court embodied in the new rule many of the points of the Clayton anti-injunction bill, for which labor leaders have been fighting, which has passed the house and waits in the senate.

Instead of temporary restraining orders being issued without notice upon presentation to a federal judge of general allegations that immediate and irreparable damage is about to be inflicted, the new rule requires that it must be shown by specific facts, set forth in affidavits or otherwise, that such damage will result.

When a temporary restraining order is issued, a hearing on the injunction must be given within ten days. Heretofore no time limit was fixed by the rules, and often not by the courts.

The court went still further and provided that those restrained may come into court within two days, and be heard with expedition on a motion to dissolve the restraining order.

The new rules do not require those procuring the restraining order to give a bond, or the judge to set forth in the order his reasons for granting it. These were provisions in the Clayton bill.

### ASK REQUISITION FOR MRS. LESH

Woman Who Confessed Two Killings to be Brought Back From Los Angeles.

Sedalia, Mo., Nov. 5.—Sheriff M. T. Henderson asked Gov. Hadley for a requisition and will leave on Wednesday for Los Angeles, Cal., to bring back Mrs. Pansy Ellen Lesh, who confessed to having caused the death of Mrs. Elizabeth Quaintance of Green Ridge, Mo., in 1904 and of Mrs. Eliza A. Coe of Sedalia in 1905 by giving them rat poison.

Sheriff Henderson received a message from the chief of police of Los Angeles asking what steps he desired taken in the case. Henderson telegraphed to hold the prisoner until he could reach Los Angeles. The confession caused great surprise here. Many do not believe it. They believe Mrs. Lesh has taken this method of getting back to Missouri at the expense of the state.

### AFTER KANSAS WHITE SLAVERS

Members of Anti-Horse Thief Association Searching for Girl Missing Since Saturday.

Wichita, Kan., Nov. 5.—J. L. Jones of Conway Springs, Kan., and W. M. Grier of Viola, Kan., members of the Anti-Horse Thief association, are in Wichita seeking Ethel Madison, 16 years old, who has been missing from home near Viola since last Saturday, when she left bareheaded to walk ten miles from her home to a neighbor's house. The girl's mother, a widow, has received a letter from her saying she was in the hands of a young man and the pursuers believe she is being held in white slavery. The girl is pretty. The letter was mailed on a St. Louis & San Francisco train and it is believed it was mailed at some point near Wichita. The local police have been called into the case.

**Bay State Returns First.**  
Boston, Nov. 5.—It is expected that Massachusetts will be among the first states to give definite results of the vote in a national election precinct, the returns coming from some little town in Barnstable, Norfolk or Plymouth counties. Four years ago the town of Norwell sent complete returns soon after 1 o'clock in the afternoon, while a dozen towns in the Old Colony district of the state had reported before 3 o'clock.

**Burned His Own House.**  
Leavenworth, Kan., Nov. 5.—According to advices received from W. C. Cott, 15 miles south of here, it is believed that Luther Spainhauer, an old bachelor of that town, ended his life by setting fire to his three-room home.

Neighbors say that he was in the house a few minutes before the fire was discovered and all efforts to find him afterwards proved futile.

**Brought Back Americans' Bodies.**  
San Francisco, Nov. 5.—With its flag at half mast, the Pacific Mail steamer San Juan arrived from Central American ports, bringing the bodies of seven American seamen and marines, killed when the United States put down the Nicaraguan rebellion.

### PACKEY M'FARLAND

Packey McFarland, the lightweight boxer, announces that he will retire from the ring on January 1. He is only 24 years old but has made nearly \$20,000 in eight years.

### TO "ELEVATE" BOXING GAME

#### INTERNATIONAL BOARD FORMING TO CONTROL RING.

Idea is to Conduct Sport Throughout the World, on Plan of Present Baseball Commission.

New York, Nov. 5.—A boxing commission that will be world wide in its rulings is in process of formation. Charles J. Harvey, secretary of the New York state athletic committee, has forwarded letters to every reliable club in this country asking for their support, and as soon as enough favorable responses are received the organization will be launched.

The idea is to conduct the boxing game on the lines under which the national baseball commission governs baseball. A meeting is to be held at some central point and a commission of five or seven men will be appointed to supervise and handle the various questions that may arise. In this manner the sport would be placed on a higher standing than it now enjoys and affairs carried on in a manner that permit of no objections.

At the present time the New York state athletic commission has a mutual agreement with the controlling spirits of boxing in France and Australia, by which all rulings and suspensions of one body are respected by the other organizations. It is expected that England will join the international body, which will mean the combination of three leading powers of boxing.

### SLEEPERS WERE DANGEROUS LOT

All Concerned in Honolulu Killing Asleep at Time of Crime, Including Victim.

Honolulu, Nov. 5.—As a result of a drunken orgy indulged in by members of an Honolulu wine party, Private Daniel Logan, first infantry, was arrested for the killing of William Reynolds, a former tenth infantryman. Not only was the victim asleep when he was killed by a single shot, but it seems to have been established that the man who shot him was also asleep and that the man who struggled with the murderer for possession of the gun was asleep as well. The last two were in a drunken somnambulistic stupor. The shooting occurred in a deserted stable following a carouse in which the soldier had joined.

### FEW ARE VOTING IN THIS COUNTY

Two Thousand Disfranchised Citizens Can Only be Spectators in Ohio Election.

West Union, O., Nov. 5.—The nation looks forward to election day, but there is nothing in it for Adams county. Two thousand disfranchised voters are "hanging around" the town with nothing to do. Once one could get as much as \$10 for a vote in a presidential election, and a few dollars besides, but now an election day is profitless.

Judge A. Z. Blair, who disfranchised the 2,000 voters because they sold their votes, is on the job. Judge Blair says liquor is being furnished voters in exchange for their support. Also, that some of the disfranchised have moved into other precincts, voted at the May primaries and are trying to vote now.

### New K. S. A. C. Regent.

Manhattan, Kan., Nov. 5.—Arthur Capper having resigned as a member of the board of regents of the Kansas agricultural college, Edwin Taylor of Edwardsville was unanimously elected as president of the board. W. E. Blackburn of Anthony was elected vice-president.

Boston, Nov. 5.—"If you abandon meat and eat vegetables, don't take baked beans," Dr. Woods Hutchinson told an audience of Back Bay people at the Twentieth Century club in a talk on pure food.

## WAR IN BALKANS MUST CONTINUE

Ottoman Request for Mediation Brings Refusal From Powers.

### CHRISTIANS LIVING IN FEAR

Fanatical Turks Expected at Any Moment to Begin Horrible Butcherries—Mohammedans Dread Invasion of Victor.

London, Nov. 5.—The last act in the great war drama of the Balkans—the entry of the Bulgarians into Constantinople—is expected to be witnessed within possibly two days. The appeal of the thoroughly whipped Ottoman government for an armistice has been denied by the powers and now Mazin Pasha, the Turkish commander-in-chief, is making his last stand against the victorious Bulgarians at the lines of Tchatalja, 25 miles outside Constantinople.

### Would Offend Victor.

Meanwhile, within the confines of Turkish capital, Christians and Mohammedans alike are existing in a state of fear, the former, believing that the fanatical Turk, in the desperation of defeat, will turn upon them with the knife and the latter living in dread of the victorious hosts as they approach the city.

It was apparent to practically all the leading diplomats of Europe, and some of the governments so stated during the day, that Turkey's proposal for a cessation of hostilities would offend the Balkan victors.

**Bound to Finish Turks.**  
Other governments took the position that it would be an infringement of international law for the movement and so Turkey's request was not received with favor and the war must go on. It appears to be only a question of one more battle between the crippled Turks and the victorious invaders, yet Nazim Pasha, confident of his ability to hold the lines for the Turks at Tchatalja, is determined to fight to the end, while the Balkan allies, who have given it out flatly that they will talk peace terms only with the Sultan, are determined to wipe out the last remaining vestige of the Turkish forces.

That there has been no cessation of hostilities owing to the request for mediation is indicated by the receipt of a dispatch recounting another reverse for the Turks. In an engagement between the Bulgarians and the Turkish army, which is occupying the line from Tchortlu to Istranya, the Turks were repulsed on their eastern flank with heavy losses.

### SHOT HORSE AND TRIED SUICIDE

Because He Could Not Bear to See Animal Abused Arizona Miner Killed It.

Bisbee, Ariz., Nov. 5.—His remarkable attachment for a horse, the use of which had been denied, led Glen Shipley, a young miner, to kill the horse and then attempt to commit suicide, after gaining forcible possession of the animal. Shipley went to the livery stable where the horse was kept, help up the man in charge with a revolver, rode the animal into the hills, gave the horse a last feed of oats and then put a bullet through its head. Lying down beside the dead horse Shipley shot himself.

Shipley had used the horse for six years. Recently he quarreled with the stable man because others who rented the animal mistreated it. Frequently he rented the horse and kept it tied up all day so that careless drivers might not get it.

### PRISONERS DRUGGED A TRUSTY

Four Men Then Sawed Through Steel Bars of California Jail and Escaped to Hills.

Bakersfield, Cal., Nov. 5.—After drugging a trusty, sawing through iron bars and scaling a jail yard wall, four former inmates of the Kern county jail are fleeing through the hills with two posses in pursuit.

T. H. White, the trusty, is believed to have been given the smuggled drug by another prisoner. When he became unconscious in the corridor the jail breakers sawed through eight iron bars in their cells and three in a jail window. They descended to the ground by a rope made of their blankets and scaled the 20-foot jail wall by another rope which hung from the top of the wall.

### Auto Lamp Fires Powder.

Anderson, Ind., Nov. 5.—With a hip pocket filled with gunpowder, 13-year-old Hartley Lipton, a newsboy, was standing in front of an automobile lamp when heat from the lamp exploded the powder. The lad was buried several feet and seriously burned. He was taken to a hospital.

### Uncle Sam Was Third.

Kansas City, Nov. 5.—George M. Myers has just received a telegram from H. E. Honeywell, pilot of the Kansas City balloon. Uncle Sam, that he had won third place in the international balloon races from Stuttgart, Germany. The message said nothing as to John Watts having won a possible second or first place in the race.

## ELECTION BOARD IS AFTER BURNS

New York Officials Claim Voters Were Misled by Advertisement.

### WOMEN'S VOTES A BIG FACTOR

Result of Ballots in Six Western Suffrage States Being Watched Anxiously—Five Others Voting on Question.

New York, Nov. 5.—Activity among detective forces and political headquarters to prevent fraud and disbar illegal voters from the polls lent excitement to the campaign in New York city.

The Progressive national headquarters issued a statement early in the day notifying voters that police could be called upon by any citizen to enforce the laws at the polling places. In support of this contention, George W. Perkins made public a letter from Police Commissioner Waldo stating that the authority of the police was ample to cover any irregularities at the voting booths.

### Move Against Burns.

J. D. Britt, president of the board of elections, addressed a letter to District Attorney Whitman calling upon him to take legal action against William J. Burns, the detective commissioned by Col. Roosevelt to ferret out election frauds, for the publication of an advertisement alleged to be "false and misleading." The advertisement offered \$500 reward for information leading to the conviction of persons who attempted to vote illegally and it was stated that six months' residence in the county was necessary. The board of election cites that the law requires only four months' residence; hence the charge that the advertisement is "false and misleading."

At Burns' office it was said if any misstatement had been made, it had been made unwittingly.

### Longest Campaign.

Few American campaigns have run through a longer period of heated controversy. The fight for the presidency was under way early in February and has scarcely lagged since that time.

Out of the eight men who were active candidates for presidential nomination early in the summer, three leading candidates, representing three parties, whose relative strength is still a matter of conjecture, remain.

The influence of women in the campaign is probably greater than in any previous election. Each national headquarters has had an organized bureau to appeal to women workers, presided over by women known in public and social life. In the six western states where women are voting, Wyoming, Utah, Colorado, California, Idaho and Washington, their ballots will be an important factor in the results. In five other states, Arizona, Michigan, Kansas, Oregon and Wisconsin, the right of women to vote is now an issue at the polls.

### MAN DIED FROM TIGHT LACING

Exertion of Putting on Act Impersonating Woman, Results in Death of Actor in St. Louis.

St. Louis, Nov. 5.—Too tight lacing caused the death of Joseph Hennella, 50 years old, an actor who was stricken while impersonating a woman in a South Jefferson avenue theater. Hennella was taken to the city hospital and died there shortly after wards from apoplexy.

Hennella had been in St. Louis two weeks. When he went to the theater he apparently was in perfect health. His part required him to assume a sylph-like appearance. He had been accustomed to lacing tightly. The exertion of putting on his act is believed to have caused the rupture of a blood vessel.

### Income Tax Nearly Ratified.

Washington, Nov. 5.—Formal notice of the ratification by the state of Louisiana of the income tax constitutional amendment has just reached the state department. Thirty-three states have now given notice of their approval of the amendment and the department is expecting notice daily from Ohio, where the legislature already has acted favorably. The affirmative votes of only two states now are necessary to make the three-fourths required by the constitution for its adoption.

### Five Ate and Then Died.

Denver, Nov. 5.—With the death of John Laverson Gower, an English capitalist, at Colorado Springs the mystery surrounding the supposed poisoning of seven persons at the Mary Murphy mine near Buena Vista recently has deepened. Five deaths already have occurred among persons who ate in the boarding house October 21.

### "Didn't Know It Was Loaded."

Pittsburg, Kan., Nov. 5.—Lonnie Le Roy, 18 years old, was to have become the bride of Horace Demoy of Skidmore next Christmas. Demoy visited his fiancee to show her a new automatic shotgun. It was not loaded, he said. They were examining the weapon when it was discharged. The girl was killed.

## TURKS BEGGING FOR MEDIATION

Government Issues Bulletin Admitting Defeat and Asking Truce.

### CHRISTIANS IN GREAT DANGER

Unruly Element in Constantinople Wait But Slightest Excuse for Massacre and Pillage—Powers Send Warships.

Constantinople, Nov. 4.—The porte has applied to the powers for mediation with a view to the cessation of hostilities and for the negotiation of peace. Application has been made to the embassies here and by circular to the Ottoman representatives in the European capitals.

The Turkish army is retreating to the last line of fortifications outside the capital. This was announced in a bulletin admitting defeat in the great battle on the Thracian plains which the government issued.

There is a large and unruly element of the population which would be glad of any pretext for massacres and pillage.

### Rioting Expected.

The presence of more than 10,000 Moslem refugees from the war zone, who have lost all their possessions, adds to the danger of the situation. Rumors are current that the Young Turks committee may start rioting with the object of overthrowing the government, but there have been no tangible proofs of such a plan. It is doubtful whether a rising would be directed against foreigners as much as native Christians, but the danger to foreigners is very real.

### Warships Through Dardanelles.

London, Nov. 4.—Application was made to the embassies in Constantinople for mediation by the powers to end the hostilities and arrange a peace agreement.

The ambassadors, prior to this, had asked the porte to grant permission to each of the great powers to send one warship through the Dardanelles and this request had been complied with.

The only guarantee of safety for the native Christians and foreigners in Constantinople is to be found in the presence of the warships of the great powers in the harbor of the Turkish capital.

### Bulgaria Won't Stop.

It is the general belief that Bulgaria will refuse to listen to anything in the way of intervention until the Bulgarian army is at the gates of Constantinople and will insist that Turkey make an appeal direct to the allies without interference from the powers.

The powers have not been able to agree upon the French premier's formula of "territorial disinterestedness" which is not acceptable to either Austria or Germany. They are taking steps, however, for the protection of Christians and their own political interests in Turkey. One warship in addition to the vessels already despatched to Turkish ports, will be sent through the Dardanelles by each of the powers.

Beyond the statement that the Turkish army is retreating to the last line of fortifications outside Constantinople, there was little news received from the seat of war.

### THREE MORE SACRIFICE SKINS

Father, Brother and Fiance of Woman Badly Burned. Submit to Operation.

Gary, Ind., Nov. 4.—Three more men, her father, her brother and her son, gave up 50 square inches of skin for the burned body of Miss Michel Smith, for whom Billy Rugh, crippled newsboy, gave his life. Towing a useless limb to be amputated for its skin. The operation was performed at a local hospital. When Rugh gave his limb no skin was obtained. It is said Miss Smith will be well in a month.

### PEDDLED BOOZE TO PRISONERS

When Men Wanted More and Were Refused, They Told Officers of Sale.

Wichita, Kan., Nov. 4.—Charles Creighton was arrested here for selling liquor. The complaining witness against Creighton are four prisoners in the city jail who got drunk on whisky which Creighton took to them through the police court, while the court was in session, they allege. The men wanted another quart of liquor in which to sober up in the morning. When he refused they accused him to the officers of selling liquor.

### Boys Shot While Nutting.

Muskogee, Ok., Nov. 4.—Barlow Hawkins, 12 years old, and Tom Swanson, 11 years old, were shot and wounded dangerously by an unidentified negro while picking up hickory nuts in the woods near here.

### Taft Goes Home to Vote.

New York, Nov. 4.—President Taft has left this city for Cincinnati, where he will cast his vote Tuesday. He held his last 1912 campaign talks with leaders of his party before leaving.

### ST. JOSEPH MANIAC ESCAPED

#### LEFT ASYLUM WHILE HANDS WERE STRAPPED.

Louis Logan Believed to Have Had Outside Assistance—Mental Condition Not Known to Friends.

St. Joseph, Mo., Nov. 4.—Until he had escaped, friends of Louis S. Logan, 36 years old, member of a widely known pioneer family, did not know that he had been an involuntary prisoner in a sanitarium, and the story of it has caused a sensation in St. Joseph society.

Logan was sent to the sanitarium following a breakdown in health. He had become so violent that it became necessary to restrain him with straps and when he left the institution it is known his hands were strapped down to his waist. How he could have escaped detection with his arms manacled in this manner is a source of great wonder and there is one theory that some members of the family supplied him with funds with which to leave the city after aiding in his escape.

After his escape no one associated with the L. Logan for whose whereabouts the institution advertised extensively and for information concerning whom large rewards were being offered, with Louis S. Logan, mining engineer and active socially. It was generally supposed that he had gone to California with his mother.

General belief is that Logan was assisted to escape and that fearing he would again be sent back to the sanitarium he has gone West and is living under an assumed name until he can regain his health.

### TO WATCH FOR ELECTION FRAUDS

Governor Hadley Issues Warning Letter to Three Principal Cities of State.

Jefferson City, Nov. 4.—Letters instructing the police and election commissioners to exert themselves actively to get fair elections in St. Louis, Kansas City and St. Joseph were mailed by Gov. Hadley. They were addressed to Rush C. Lake, chairman of the election board, and Solon T. Gilmore, chairman of the police board at Kansas City, to Arthur A. Woerheide, president of the police board, and Henry Kortjohn, Jr., chairman of the election board of St. Louis, and to John D. McNeely, president of the police board at St. Joseph.

An excerpt of his letter to the heads of the police board reads: "I wish you would see that instructions are given to the members of the police department that they will be expected to exert themselves actively to secure an observance of all the election laws, and no excuses will be accepted for any failure in this regard."

He advised each he had offered a reward of \$300 for the arrest and conviction of persons violating the election laws.

### FOUND PLACES FOR OVER 15,000

Missouri State Free Employment Bureau Reports Result of Year's Work.

Jefferson City, Nov. 4.—In the year ending September 30, 1912, the three employment offices of Missouri obtained positions for 13,594 men and 1,653 women, according to a bulletin just issued by Austin W. Biggs, commissioner of the state bureau of labor statistics.

The bulletin says: "In the period there were applications from employers to the three offices for 39,748 men and 2,552 women. The greatest demand was for harvest hands, there being requests for 17,608 men to do that kind of work. The next greatest demand was for ordinary laborers, 7,243 applications being filed by employers for that class of help."

"Probably the best record made by the three offices was in getting positions for women who wanted work in factories, as out of 158 applicants places were found for 145."

"This service is absolutely free of charge to the employer, as well as to the employee."

### Sent Messages From Sky.

Junction City, Kan., Nov. 4.—Wireless messages were sent from an airplane at Fort Riley during the day.

Lieut. Henry Arnold, the army aviator, with Lieut. Bradley, a wireless expert, ascended 900 feet, flying from Fort Riley to Ogden and back, sending a number of messages which were received by Lieutenant Mowbray, signal corps, at a field wireless station on the artillery parade ground. Officers were immensely pleased with the result of the tests.

### Find Second Fire Victim.

St. Louis, Nov. 4.—The second body found in the ruins of the Berlin hotel, which was destroyed by fire was identified through jewelry as that of Mrs. Helen Harrington-Shepard-Conley-Abeles, former actress and stenographer, and divorced wife of James Abeles, son of a wealthy St. Louis family.

**LIGHTNING RODS**

HAVE BEEN PROVED A BENEFIT TO PROPERTY.

**SCIENCE DEFENDS RODS**

Experiment Station Decides That Franklin's Invention is a Blessing to Mankind.

In the late years the lightning rod "graft," for such it has been called in the past, has been worked to such an extent that the public had doubted the real value of the rods. Unscrupulous men pretending to be experts, have traveled through the country imposing on ignorant persons and leaving in their train rods that were so carelessly erected that they were as likely to be a source of danger as of protection.

At last, however, science has come to the defense of the much abused rod. In a bulletin to be issued this week by the engineering experiment station at Columbia, Mo., it is shown conclusively that lightning rods are a protection.

Only eleven buildings equipped with lightning rods have been damaged by lightning in the last three years in Missouri. In some cases rodded houses have been struck by lightning and not an unrodded house damaged. This has caused the public to doubt the value of the rod. On the other hand, hundreds of houses without lightning rods have been struck while the rodded houses have escaped.

A proof of the benefit of the lightning rod has been given for several years in Iowa and Missouri. Meetings of delegates from each county in the state are held each year. The results of these meetings show that the heavy loss to property unprotected by lightning rods is so great in comparison to the damage to rodded houses that there is no doubt of the worth of this invention.

The lightning rod, however, has not proved as useful in this country as it might, on account of ignorance of its true value, and on account of the fact that rods have frequently cost more than they needed to.

Benjamin Franklin invented the first lightning rod. He announced his discovery in a pamphlet called "Poor Richard's Almanac," of which he was the publisher. Franklin and his friends immediately set to work to induce their fellow countrymen to place lightning rods on their houses.

It was not a great while before some of these were put to test and proved successful. A Philadelphia merchant by the name of West was one of the first to provide his house with the kind of rod that Franklin recommended. A thunderstorm occurred soon after it was finished and lightning struck the point of the rod. The stroke was witnessed by a number of people, who reported that they had also seen a flash near the foot of the rod. The house was not damaged. A few cases such as this, where heavy strokes of lightning left houses uninjured, were enough to convince of real protection. However, their use spread rather slowly.

Woodward's Montgomery Shoe Co. team nosed out the Bull Mooses and the Berney Harris' soundly trounced the Bee Hives in Monday afternoon's play in the Normal basket ball tournament at the Normal gym.

The first contest between the Moosers and the Montgomery Shoe Co. started out with the shoe met away in the lead, but in the second period the Moosers took a brace and were just barely beaten by a 15 to 13 count. Cap Vandersloot of the losers was not in his usual form, and he repeatedly missed easy chances for goals that would have put his team in the lead.

For the winners, Cap. Woodward at Ward and Watson at forward twinkled frequently. The summary:

Montgomery Shoe Co.—Forwards, Watson and Britain; center, Starmer; guards, Woodward and Powell.

Bull Mooses—Forwards, Vandersloot and Hanna; center, Jones; guards, Eichle and White.

Goals from field—Vandersloot 2, Hanna 2, Watson 3, Starmer.

Free throws—Vandersloot 3, Watson 6, Woodward.

The first half of the second game, which was between the Bee Hives and the Berney Harris team, was nip and tuck, that period ending with a 4 to 4 count. However, in the second half the clothiers gradually overcame their opponents and won handily, 15 to 6.

The Bee Hives were slightly handicapped by the absence of Captain McClinton, who is out of the game with a lame foot. Prof. Eek, who took charge of the team, played a very creditable game, considering that yesterday's game was his first this season.

Summary:

Bee Hives—Forwards, Carpenter and Anderson; center, Eek; guards, Hanna and Hartness.

Berney Harris—Forwards, Boyer and Mathes; center, Perrin; guards, McDougal and Taylor.

Goals from field—Perrin 3, Mathes, Taylor, Carpenter, Eek.

Free throws—Perrin 3, Anderson, Eek.

## MRS. J. G. PRICE INJURED.

**Accident Occurred on a Bad Crossing at Corner of Fillmore and Jenkins Street.**

Mrs. J. G. Price was badly injured Saturday evening on her way uptown when she fell off a very bad crossing at the corner of Fillmore and Jenkins streets. Her right shoulder was injured and her right arm was badly bruised. Mrs. Price will be laid up for six or eight weeks with her injuries.

The street commissioner and the city have been notified time and time again about this dangerous crossing, but for some reason they have never made any effort to fix it. If the city had repaired this crossing when notified, no doubt Mrs. Price would not be laid up today.

## Came for Conrad Funeral.

Mrs. Marvin Eggleston returned to her home in Kansas City Tuesday morning after a few days' stay in Maryville with her relatives, the families of F. C. Conrad, George Conrad and Mrs. Henry Eckert. Mrs. Eggleston came to Maryville on account of the death of her grandfather, C. Conrad, who died at the home of her parents Mr. and Mrs. Levi Taylor, at Holdenville, Okla., Tuesday of last week, whose funeral and burial service took place in this city.

**Returns at Palestine Church.**

The election returns will be used at the Palestine church, near Graham, this evening after church services. Revival services are being held now at that church by Rev. Harlan of Maitland, and after the sermon tonight all who care to remain are invited to do so, when the returns will be received.

**Mr. McCabe Funeral.**

Mr. and Mrs. John Graham went to Bedison Tuesday to visit Mrs. Graham's sister Mrs. George Graham, and family, and they will attend the funeral services of Miss Bridget McCabe at New Fritchberg Abbey church, whose death occurred Monday morning at St. Francis hospital.

## ONE WAY TO DO IT HELD IN SECTIONS

**SHOULD NO CANDIDATE RECEIVE MAJORITY OF ELECTORAL VOTE.**

## HOUSE WOULD BE TIED FAMOUS TALKERS COMING

**And Then Senate Might Not Be Able to Agree—Would Mean New Election Next Year.**

The indications from all over the country are that Governor Wilson will win in the election today by a big popular vote and also by a big electoral vote. All signs point to Wilson. But if the election is closer than many people figure on, and in the event of a failure of any candidate to get a majority of electoral votes, many people are making inquiries regarding the procedure and who would be president. The following is from the Kansas City Times in regard to this, which will probably be of interest:

At the election today the people do not vote for presidential candidates directly. They vote instead for electors. Each state has as many electors as it has senators and representatives. Altogether there are 532 electors, and 267 votes will be necessary to elect. It may be mentioned in passing that most of the tables of electoral votes are wrong, for they credit New Mexico with three electoral votes instead of the four that it actually has.

The electors meet in the capitals of their respective states on the second Monday in January and go through the formality of casting their ballots. A certificate of the result in each state is then sent by special messenger to Washington, and on the second Wednesday in February the votes are counted in the presence of both houses of congress.

If it should appear at that time that no candidate has a majority of the electoral votes, then the two houses separate. The house at once proceeds to select a president from the three candidates receiving the highest number of votes. In this selection the house votes by states, the representatives from each state having one vote.

Now it happens that the states are a little politically, with the delegations from four states evenly divided. It is improbable that any candidate could get a majority of all the states. There

would therefore be no choice, and the vice president-elect would become president on March 4.

If there were no election of a president by the electoral votes, there would be no election of vice president and the senate would choose a vice president. A majority of senators would be sufficient to elect and the choice must be made from the two vice presidential candidates receiving the highest number of votes.

The chances are that enough regular Republicans would abstain from voting to prevent any candidate from getting a majority of all the senators. In that event there would be no president elected.

It is generally assumed that the secretary of state, being next in succession, would become acting president on March 4, as he is appointed for an indefinite term and his commission does not expire with the administration. Then he would be bound to convocate congress in special session within twenty days for the purpose of enacting laws for a special presidential election.

Should there be no election today then the chances would be good for another campaign and election next year.

## ELECTION RETURNS AT COURT HOUSE.

The Democrat-Forum will give election returns at the circuit court room in the court house tonight. A direct wire of the Western Union and an operator will be there and the bulletins will be given as soon as received. In addition to national and state returns, county returns will also be received there.

Everybody is invited, especially the ladies. There are plenty of seats for all. Come out and hear the election returns in comfort, whatever the weather may be.

The election bulletins will start coming in at 5 o'clock, and these bulletins will be posted at The Democrat-Forum office from 5 to 7 o'clock, then they will be posted at the court house. After 7 o'clock all bulletins will be received at the court house.

Doors will be open at 6:30 o'clock. There will be no reserved seats.

## COURT ADJOURNED TODAY.

**WILL MEET ON WEDNESDAY WHEN ROAD PETITION WILL COME UP.**

The county court after being in session one day, adjourned Monday evening until Wednesday, as Tuesday is election day. Judge Wm. Blackford, a member of the court from the north district, is a candidate for re-election and went home where he will work and vote. Judge J. O. Thompson, the other member of the court from the south district, also went home Monday evening to vote Tuesday.

The resignation of A. F. Croy and D. McKibbin as justices of the peace were accepted by the court Monday.

Frank S. McMackin filed a petition for a private road in the land belonging to Mrs. Kate Rundell and the court set Wednesday as the day when the case will come up.

Quite an interest is being taken in the election, but there doesn't seem to be very much excitement.

## SCRATCHING TICKET

**REPUBLICANS AND PROGRESSIVES KNIFING CANDIDATES.**

## BIG VOTE BEING POLLED

**1,004 VOTES POLLED AT 2 O'CLOCK IN POLK TOWNSHIP—WILSON WILL CARRY THE COUNTY.**

It is up to the voters. Today they are determining by their ballots who they want to represent them in the nation, state and county for the coming years.

The vote cast at 2 o'clock this afternoon in Maryville and Polk township was as follows:

Polk A.	297
Boik B.	233
Boik C.	241
Boik D.	233

Total ..... 1,004

Two years ago in this township and city there were 1,662 votes cast, so the vote at this election will be as heavy as it was two years ago.

According to unofficial early returns received this afternoon Wilson will carry the county, with Roosevelt second and Tait third. The indications were also that the entire Democratic county ticket would be elected, as many Republicans and Bull Moosers were scratching their county ticket.

Quite an interest is being taken in the election, but there doesn't seem to be very much excitement.

Township Swept by Flames.

Larned, Kan., Nov. 4.—The third big Western Kansas prairie fire this season is reported from Haskell county, where a stretch of farm pasture land covering most of a township was burned off. The fire was started by a traction engine while hauling a hotel building from Santa Fe to Sublette, one of the new towns on the Colmar cutoff. A strong south wind swept the flames northward. A force of about 100 farmers and citizens of Santa Fe fought the fire. The amount of damage is not determined.

Mothers' Circle Wednesday.

The Mothers' Circle will entertain the Pickering Mothers' Club on Wednesday, November 6, when Rev. Claude J. Miller of the First Christian church will address the circle on "What are the Menaces that Threaten Children who are Permitted to be on the Streets After Dark?" Rev. J. D. Randolph will lead the devotional service. Miss Hettie Anthony will speak on "The Adulteration of Foods." Miss Dorothy McDonald and Ernest Moore will play a piano duet, and little Miss Nina Blanche Jones will give two vocal selections, and Miss Marie Jones will give a vocal number. The ladies on the reception committee are Mrs. Eugene Ogden, president; Mrs. S. E. Farmer, Mrs. Leslie Dean, Mrs. Wm. Everhart and Mrs. E. B. Sheldon.

The meeting will be held in the high school auditorium at 2:45 o'clock and is open to all interested. After the meeting a luncheon will be served in the domestic science room of the high school in honor of the Pickering ladies, and for which eighty-six plates have been reserved.

Music Department Met.

Miss Alma Nash was hostess of the music department of the Twentieth Century club Monday afternoon. "Negro Melodies" was the subject, and the following program was presented and thoroughly enjoyed: "Uncle Remus, His Songs and Sayings," Mrs. Berney Harris; "Plantation Melodies"—(a) Suwanee River, (b) Old Black Joe, (c) Nellie Was a Lady, sung by Mrs. H. L. Raines, with banjo accompaniment by Miss Nash; solo, "Old Uncle Ned," Mrs. George Eaton; Development of Negro Melodies as a Phrase of Americanism—Would Their Work Be the Same in France or Russia? Mrs. W. M. Wallis, Jr.; solo, "Mighty Lak a Rose," Mrs. D. J. Thomas. The program closed with a few readings in dialect from Joel Chandler Harris.

Miss Nash invited the club to remain for a social hour, and was assisted by her mother, Mrs. G. A. Nash, in serving ginger bread and cider, while selections on the amberole were enjoyed. As the day was the birthday anniversary of Mrs. E. G. Orear, who is in Kansas City on a visit to her mother, the club voted to send her a telegram, conveying its best wishes for a happy birthday.

## BOWELS BAD, LIVER TORPID? CASCARETS

If Constipated, Bilious, Headache,  
Stomach Sour, Get a 1-Cent Box of  
Cascarets—Take One Tonight.

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are ill, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular and head clear for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken—Advertisement.

1911 Missouri Poultry Products  
Amount to \$50,818,145.

The passenger department of the Wabash railroad is placing in circulation a handsome and instructive booklet relative to poultry farming in Missouri, compiled by H. L. Kempster, professor of poultry husbandry, University of Missouri.

The introductory page written by Dean Mumford of the college of agriculture of the Missouri state university, shows that the income from poultry products in 1911 alone in the state of Missouri amounted to \$50,818,145, a greater revenue than is received from wheat, oats or any other farm crop excepting only Indian corn, and this annual income also exceeds that received from the sale of hogs or sheep or dairy products.

The booklet shows how this annual income can be increased by simple methods of breeding, feeding and handling farm poultry.

It is profusely illustrated with reproductions of various breeds of poultry, exterior and interior plans of practical poultry houses, incubators, eggs prepared for shipment and treats poultry farming in Missouri in all its details.

Copies of this booklet can be obtained free from any Wabash agent, or by addressing J. D. McNamara, general passenger agent, Wabash railway, St. Louis, Mo.

## HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness, Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.

Insist on Thedford's. Price 25c.

## TURKS BEGGING FOR MEDIATION

Government Issues Bulletin Admitting Defeat and Asking Truce.

### CHRISTIANS IN GREAT DANGER

Unruly Element in Constantinople Wait But Slightest Excuse for Massacre and Pillage—Powers Send Warships.

Constantinople, Nov. 4.—The porte has applied to the powers for mediation with a view to the cessation of hostilities and for the negotiation of peace. Application has been made to the embassies here and by circular to the Ottoman representatives in the European capitals.

The Turkish army is retreating to the last line of fortifications outside the capital. This was announced in a bulletin admitting defeat in the great battle on the Thracian plains which the government issued.

There is a large and unruly element of the population which would be glad of any pretext for massacres and pilage.

#### Rioting Expected.

The presence of more than 10,000 Moslem refugees from the war zone, who have lost all their possessions, adds to the danger of the situation. Rumors are current that the Young Turks committee may start rioting with the object of overthrowing the government, but there have been no tangible proofs of such a plan. It is doubtful whether a rising would be directed against foreigners as much as native Christians, but the danger to foreigners is very real.

#### Warships Through Dardanelles.

London, Nov. 4.—Application was made to the embassies in Constantinople for mediation by the powers to end the hostilities and arrange a peace agreement.

The ambassadors, prior to this, had asked the porte to grant permission to each of the great powers to send one warship through the Dardanelles and this request had been complied with.

The only guarantee of safety for the native Christians and foreigners in Constantinople is to be found in the presence of the warships of the great powers in the harbor of the Turkish capital.

#### Bulgaria Won't Stop.

It is the general belief that Bulgaria will refuse to listen to anything in the way of intervention until the Bulgarian army is at the gates of Constantinople and will insist that Turkey make an appeal direct to the allies without interference from the powers.

The powers have not been able to agree upon the French premier's formula of "territorial disinterestedness" which is not acceptable to either Austria or Germany. They are taking steps, however, for the protection of Christians and their own political interests in Turkey. One warship in addition to the vessels already despatched to Turkish ports, will be sent through the Dardanelles by each of the powers.

Beyond the statement that the Turkish army is retreating to the last line of fortifications outside Constantinople, there was little news received from the seat of war.

### THREE MORE SACRIFICE SKIN

Father, Brother and Fiance of Woman Badly Burned. Submit to Operation.

Gary, Ind., Nov. 4.—Three more men, her father, her brother and her son, gave up 50 square inches of skin for the burned body of Miss Ethel Smith, for whom Billy Rugh, a crippled newsboy, gave his life. Posing a useless limb to be amputated for its skin. The operation was performed at a local hospital. When Rugh gave his limb not enough skin was obtained. It is said Miss Smith will be well in a month.

### CHARLES HYSLOP, General Agent.

### PEDDLED BOOZE TO PRISONERS

When Men Wanted More and Were Refused, They Told Officers of Sale.

Wichita, Kan., Nov. 4.—Charles Creighton was arrested here for selling liquor. The complaining witness is Inst. Creighton are four prisoners in the city jail who got drunk at whisky which Creighton took to them through the police court, while the court was in session, they allege. Then wanted another quart of liquor to which he sober up in the morning. When he refused they accused him to be officers of selling liquor.

#### Boys Shot While Nutting.

Muskogee, Ok., Nov. 4.—Barlow Hawkins, 12 years old, and Tom Swanson, 11 years old, were shot and wounded dangerously by an unidentified negro while picking up hickory nuts in the woods near here.

#### Taft Goes Home to Vote.

New York, Nov. 4.—President Taft has left this city for Cincinnati, where he will cast his vote Tuesday. He held his last 1912 campaign talk with leaders of his party before leaving.

### ST. JOSEPH MANIAC ESCAPED

LEFT ASYLUM WHILE HANDS WERE STRAPPED.

Louis Logan Believed to Have Had Outside Assistance—Mental Condition Not Known to Friends.

St. Joseph, Mo., Nov. 4.—Until he had escaped, friends of Louis S. Logan, 36 years old, member of a widely known pioneer family, did not know that he had been an involuntary prisoner in a sanitarium, and the story of it has caused a sensation in St. Joseph society.

Logan was sent to the sanitarium following a breakdown in health. He had become so violent that it became necessary to restrain him with straps and when he left the institution it is known his hands were strapped down to his waist. How he could have escaped detection with his arms manacled in this manner is a source of great wonder and there is one theory that some members of the family supplied him with funds with which to leave the city after aiding in his escape.

After his escape no one associated with the L. Logan for whose whereabouts the institution advertised extensively and for information concerning whom large rewards were being offered, with Louis S. Logan, mining engineer and active socially. It was generally supposed that he had gone to California with his mother.

General belief is that Logan was assisted to escape and that fearing he would again be sent back to the sanitarium he has gone West and is living under an assumed name until he can regain his health.

### TO WATCH FOR ELECTION FRAUDS

Governor Hadley Issues Warning Letter to Three Principal Cities of State.

Jefferson City, Nov. 4.—Letters instructing the police and election commissioners to exert themselves active to get fair elections in St. Louis, Kansas City and St. Joseph were mailed by Gov. Hadley. They were addressed to Rush C. Lake, chairman of the election board, and Solon T. Gilmore, chairman of the police board at Kansas City, to Arthur A. Woertheide, president of the police board, and Henry Kortjohn, Jr., chairman of the election board of St. Louis, and to John D. McNeely, president of the police board at St. Joseph.

An excerpt of his letter to the heads of the police board reads: "I wish you would see that instructions are given to the members of the police department that they will be expected to exert themselves actively to secure an observance of all the election laws, and no excuses will be accepted for any failure in this regard."

He advised each he had offered a reward of \$200 for the arrest and conviction of persons violating the election laws.

### FOUND PLACES FOR OVER 15,000

Missouri State Free Employment Bureau Reports Result of Year's Work.

Jefferson City, Nov. 4.—In the year ending September 30, 1912, the three employment offices of Missouri obtained positions for 13,594 men and 1,653 women, according to a bulletin just issued by Austin W. Biggs, commissioner of the state bureau of labor statistics.

The bulletin says: "In the period there were applications from employers to the three offices for 39,745 men and 2,552 women. The greatest demand was for harvest hands, there being requests for 17,605 men to do that kind of work. The next greatest demand was for ordinary laborers, 7,243 applications being filed by employers for that class of help."

Probably the best record made by the three offices was in getting positions for women who wanted work in factories, as out of 1,158 applicants places were found for 145.

"This service is absolutely free of charge to the employer, as well as the employee."

#### Sent Messages From Sky.

Junction City, Kan., Nov. 4.—Wireless messages were sent from an airplane at Fort Riley during the day. Lieut. Henry Arnold, the army aviator, with Lieut. Bradley, a wireless expert, ascended 900 feet, flying from Fort Riley to Ogden and back, sending a number of messages which were received by Lieutenant Mowbray, signal corps, at a field wireless station on the artillery parade ground. Officers were immensely pleased with the result of the tests.

#### Find Second Fire Victim.

St. Louis, Nov. 4.—The second body found in the ruins of the Berlin hotel, which was destroyed by fire was identified through jewelry as that of Mrs. Helen Harrington-Shepard-Conley-Abeles, former actress and stenographer, and divorced wife of James Abeles, son of a wealthy St. Louis family.

#### Not to Drop Oil Inquiry.

Washington, Nov. 4.—The termination of the Standard Oil-Waters-Pierce litigation will not affect, according to officials here, the investigation by the department of justice to determine whether the decree dissolving the Standard Oil company has been violated.
